

Business Profile

TENEREE LLC.

**Global Selection Local
Perfection**

Tenerree Is:

Procurement company, specializing in finding and providing lubricants, lab chemicals, materials, equipment, and spare parts from around the world

ABOUT US

TENEREE LLC. is a skilled procurement company, specializing in finding and providing lubricants, lab chemicals, materials, equipment, and spare parts from around the world. We proudly have strong relationships with various renowned manufacturers, each specific to their respective countries, and also offer a diverse range of materials from other suppliers.

Our main goal is to cater to the needs of industries such as oil, gas, petrochemicals, water, cement, power (electricity), steel, and more, including the dedicated contractors working within these sectors.

Benefiting from the wealth of experience within our team and our representative in the UK, we are well-equipped to handle all aspects of the process for you. This includes global sourcing and procurement, as well as overseeing the entire process.

VISION:

At Teneree LLC, we envision becoming a global leader in supply chain management, setting the gold standard for reliability, customer satisfaction, and innovation. Our commitment to excellence aims to foster lasting relationships with clients, manufacturers, and suppliers across the world.

MISSION:

Teneree LLC is on a mission to be a trustworthy business partner, unwaveringly dedicated to achieving 100% customer satisfaction in every aspect of our operations. With over 20 years of collective staff experience, we bring valuable knowledge to benefit our clients.

We are dedicated to providing a diverse range of supplies, including original equipment manufacturer (OEM) spare parts, emphasizing partnerships with top-tier manufacturers and the use of high-quality materials.

What makes us unique is our ability to seamlessly integrate materials from various manufacturers and suppliers into single shipments, offering clients a convenient 'one-stop shopping' experience. This streamlined approach enhances efficiency and reduces complexity.

SCOPE OF SUPPLY & SERVICES:

> Coatings:

Coatings play a crucial role in safeguarding steel structures from corrosion in both industrial and marine environments. Our product range includes not only general-purpose coatings but also specialized options such as intumescent coatings, chemical-resistant coatings, coatings designed for underground piping, heat-resistant coatings, coatings for preventing Corrosion Under Insulation (CUI), fluorescent paints, coatings suitable for application on top of Polyurethane foam insulation, and a diverse array of coatings tailored for specific service conditions.

> Blast cleaning abrasives (blasting grit):

Blast cleaning abrasives, also known as blasting grit, are available in a diverse range from our inventory. These abrasives are mined in the EU. Our selection includes various types of abrasives such as Iron Silicate Slag, Scorex™ Aluminium Silicate, Olivine, Garnet, Corundum, glass beads, steel shot, steel grit, and more. Additionally, we offer filter sand and filter gravel for specialized applications.

> Chemicals and Solvents:

Our company is your go-to source for a wide array of chemicals, solvents, laboratory products, and raw materials tailored for various industrial processes, including the demanding oil and gas sector. From corrosion inhibitors, scale inhibitors, and high-quality laboratory chemicals to versatile solvents and speciality products, our sourcing ensures access to a diverse inventory suitable for different applications. Whether you're involved in exploration, production, refining, transportation, or laboratory work, our unwavering commitment to quality guarantees efficient and safe support for your operations.

> Oil & Gas Line Pipes.

We supply a comprehensive selection of line pipes, including carbon steel, stainless steel, and alloy pipes, adhering to industry standards and grades. These pipes are crucial for fluid transportation in the oil and gas sector, meeting operational demands in high-pressure and corrosive environments. Our Carbon Steel Pipes are available in various sizes from ½" to 48", conforming to industry standards such as ASTM, ASME, and API, ensuring quality and reliability for diverse applications.

SCOPE OF SUPPLY & SERVICES:

> Valves and pipeline accessories:

Valves and valve accessories for control and operation as well as pipeline equipment. With several large stock points from our source in Europe, we can supply from a single valve up to complicated valve packages. Valves can be equipped with various types and brands of actuators, loose, skid-mounted or assembled into a spool.

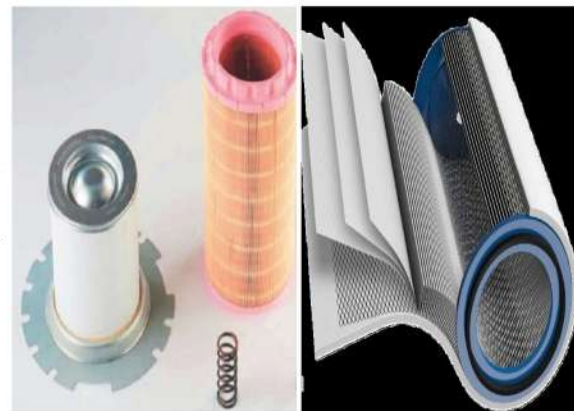

> Shackles, hooks and slings:

We supply a wide range of top-quality shackles, hooks, slings, steel wire ropes, chains, synthetic ropes, and lifting beams designed to meet your lifting operation needs. Our products are sourced from reputable West European manufacturers, ensuring the highest standards of quality. They come with EU certification and adhere to the latest international standards for your peace of mind.

> Air Filtration:

We supply comprehensive air filtration solutions for gas turbines and heavy equipment, including compressors. Whether you need efficient filtration for gas turbines from leading manufacturers like GE, Siemens, Alstom, Turbomach, Solar, or reliable solutions for heavy equipment and compressors, we are your trusted source. Our expertise lies in providing top-notch air filtration systems tailored to meet the specific demands of these critical industrial applications.

> Bearing:

Discover unmatched reliability through our high-performance bearing solutions, offering Ball, Roller, Tapered Roller, and Teflon Bearings. As a premier provider, we supply a diverse range of precision-engineered bearings with customizable options to meet industry-specific requirements. Rely on us for quality, global support, and expertise in every rotation. Contact us to enhance your application performance!

> Fire-fighting equipment and tools:

As a supplier, we offer comprehensive solutions for industrial fire brigades, encompassing a wide array of products. From safety tools to rescue salvage equipment, our range includes emergency response items such as hydrants, shut-off valves, fire-fighting monitors, tank foaming systems, valves, pumps, and various fittings. In addition to these offerings, we provide Fire Equipment, Rescue & Medical gear, Ladders, Platforms, Towers, Vehicles, PPE, Uniforms, and Clothing, ensuring a holistic approach to industrial safety.

> Pumps & Electrical Motors

Experience unmatched dependability through our high-performance solutions, featuring GMP Pumps and Marelli Motori as trailblazers in their respective domains. Both brands, which we supply, play crucial roles in the manufacturing and marketing of pumps and electrical motors tailored for a wide range of sectors, including the oil & gas industry, agriculture, shipyards, civil construction, and fire prevention.

MISCELLANEOUS SUPPLIES:

- Blasting equipment & accessories.
- Paint spray equipment (airless, conventional, electrostatic) & accessories.
- Measuring, testing and inspection equipment.
- Compressors.
- Generators.
- Cables, low, medium and high voltage.
- Gaskets, stud bolts & nuts.
- Pipeline equipment in general.
- Pressure and temperature indicators.
- Welding rods.
- Cleaners & detergents.
- General equipment and spare parts.

Coordinate Logistics:

Teneree LLC collaborates with its partner, GPS Cargo & Trading, in the UK and maintains a dedicated representative in Houston, USA. Together, they are well-equipped to handle all your logistics needs across the UK, EU, and USA. Whether it's shipping by sea, air, truck, or courier service, we offer seamless solutions.

Our services extend from European ports to USA-based ports, ensuring a smooth and efficient shipping process. Your goods can be expertly packed for seaworthiness, with options such as wooden boxes, crates, or containers tailored to your specifications.

In addition to our logistics support, we offer comprehensive services, including document translation and legalization at the required Embassy. Furthermore, we can arrange for third-party pre-shipment inspections to meet any regulatory requirements. Trust Teneree LLC and GPS Cargo & Trading for a reliable and comprehensive logistics experience.
